Mobil Notariat

Mobile Notary is an application developed by Crocusoft to facilitate all types of notary operations.

Detailed information about the amount of funds to be paid for the formalization of notarial actions, the required documents and the persons who must participate in the notarial operation are placed here.

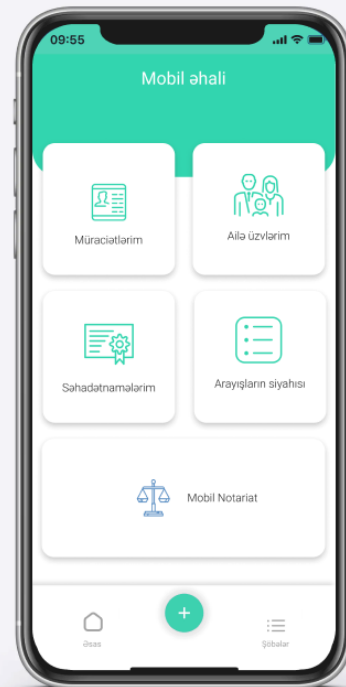

Through this application, it is possible to save documents related to all notarial transactions in which a person is a participant, to receive information about the invalidation of the document immediately, and to use the electronic version.

The app is free to download and registration is a one-time process. After registration, you can easily perform your notarial transactions at any time of the day.

Mobil Əhali

You will be able to get all the references and certificates you may need as soon as possible through the **"Mobile Population" function, which is already included in the "Mobile Notary" application.** So you can familiarize yourself with the function by entering the application.

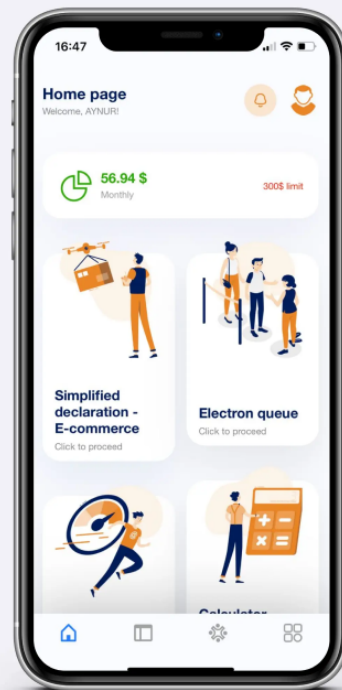

Smart Customs

Smart Customs is a **new application developed for the State Customs Committee of the Republic of Azerbaijan.**

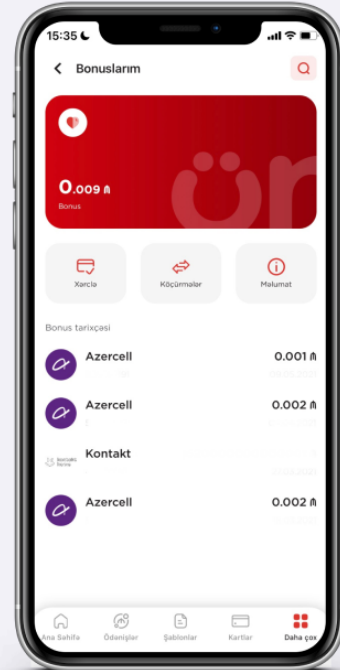

The main purpose of the application is to speed up and increase the quality of services provided by the State Customs Committee. The application allows users to queue online for border crossings, calculate customs duties, apply to the Committee, get information and at the same time conveniently contact the Call Center of the State Customs Committee.

Thanks to the innovation in the application, it is easier to announce an order from abroad. Even if you exceed the legal limit, there is no need to go through a long procedure by approaching the customs authority.

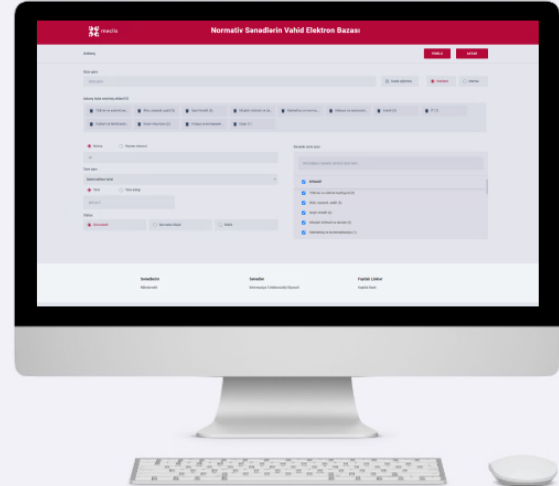

MilliÖn

MilliÖn is a platform that enables **200+ business users** to perform various payment operations with its extensive functions such as map integration, use of different payment cards and bonus system.

Kapital Majlis

The importance of Kapital Bank's Majlis platform is the placement of the bank's normative documents in a single electronic database. One of the main advantages is that the platform is "private" - the general provisions of the company, normative acts, commercial secret documents are shared only with internal company employees. In addition, the platform offers you wide and fast search possibilities.

Kapital Bank

hr.kapitalbank.az

These days, many leading companies of Azerbaijan, such as Kapital Bank, are using the New Recruitment portal for their Human Resources departments, and Kapital Bank is already introducing the hr.kapitalbank.az portal.

The main advantages of the recruitment portal:

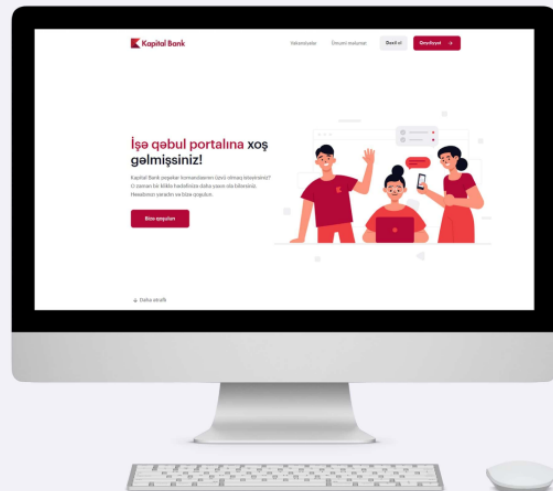

Modern, fluid user interface and experience

Unified CV database

Automatic checking of CVs

Taking notes from CV

Checking the quality of work of the recruitment team

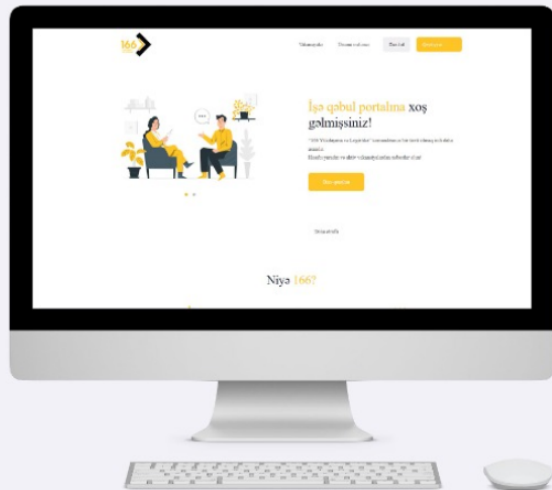

166 Freight and Logistics

hr.166.az

Another project we successfully completed is the <https://www.166.az/> website.

While developing this web platform, we have added features to the Admin panel that facilitate search engine optimization (SEO).

Creating long-term partnerships by adding digital values to businesses is our main goal. It should be noted that before the 166.az project, we developed and launched the **"Recruitment Portal" (<https://hr.166.az/>) for the 166 Freight and Logistics company.**

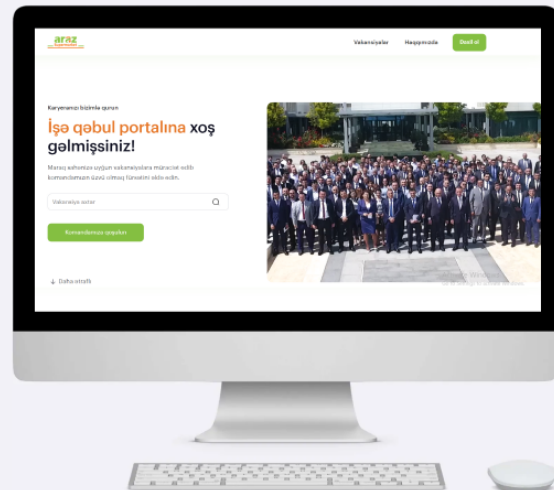

Araz Supermarket

hrrecruitment.retail.az

With the help of the Recruitment platform that we have prepared for **Araz Supermarket**, which has been with you for 10 years, **the recruitment process will be much easier**. Through this platform, applications for each vacancy will be registered, and it will be possible to easily sort CVs suitable for the vacancy. Apply now through this platform and take advantage of job opportunities.

Your business will be more profitable with a sales oriented mobile application and website!

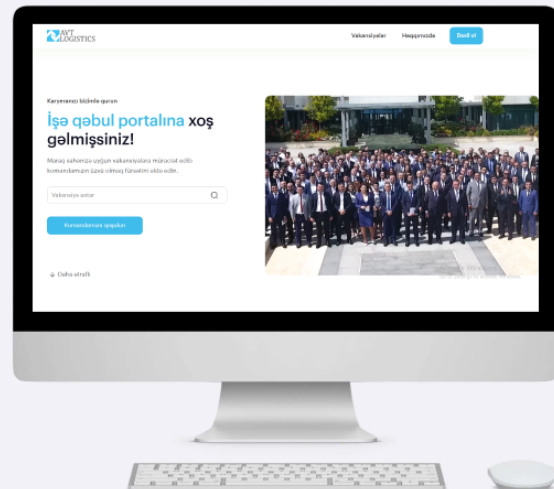

AVT Logistic

hrrecruitment.retail.az

AVT Logistika is part of the Veysaloglu group of companies and is currently one of the largest logistics companies in Azerbaijan. Veysaloğlu Sales and Distribution Company, which started operating as a wholesale center in 1994, was engaged only in the import of food products from the Republic of Turkey.

This platform is built to automate the recruitment process.

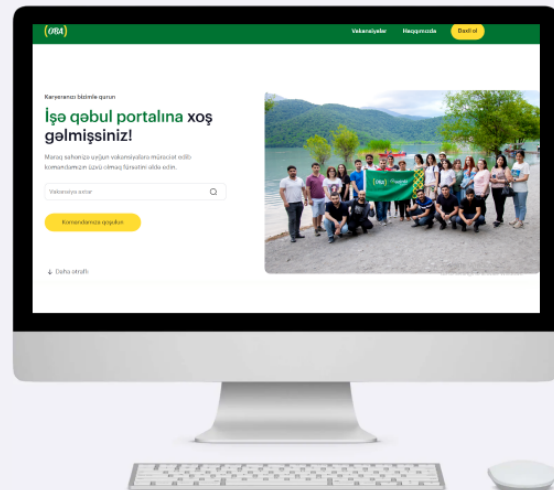

OBA Market

hrrecruitment.oba.com.az

"OBA Market" LLC is a chain of neighborhood markets operating in Azerbaijan. About 1200 markets of the company are currently operating. According to the number of markets, "OBA Market" LLC is the number 1 market chain in Azerbaijan.

This platform is built to automate the recruitment process.

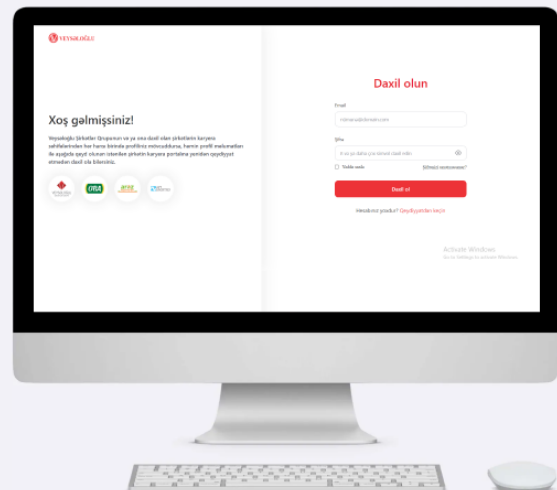

Veyseloglu

hrrecruitment.veysseloglu.az

The recruitment platform for the subsidiaries of the Veysaloglu company, which is the largest retail institution operating as a distributor, is now at the service of its employees!

With this platform, the recruitment team will have a more comfortable life.

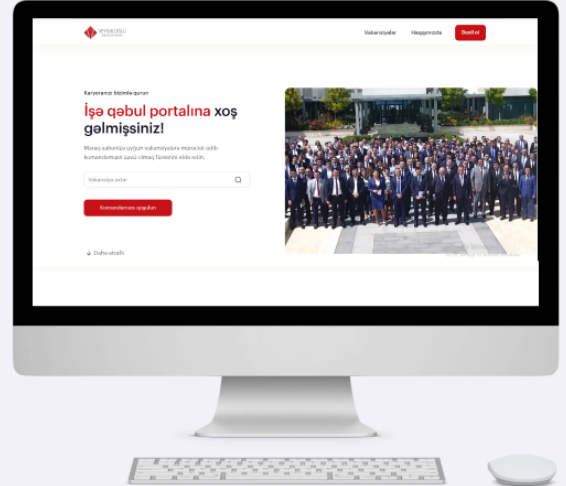

Veyseloglu Group of Companies

hrrecruitmentvsq.veyseloglu.az

Veysaloglu Group of Companies started its activity in 1994 as a sales and distribution company. Today, Veysaloglu Group of Companies is one of the largest employers in the non-oil sector of Azerbaijan with more than 20,000 employees.

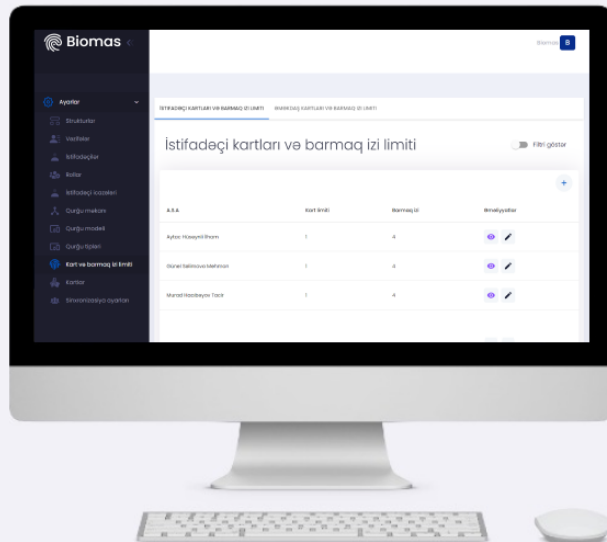

With the recruitment platform we have built, your application will be evaluated by employees as soon as possible

Biomass

The project was prepared in 2022 by order of the Veyselgolu company.

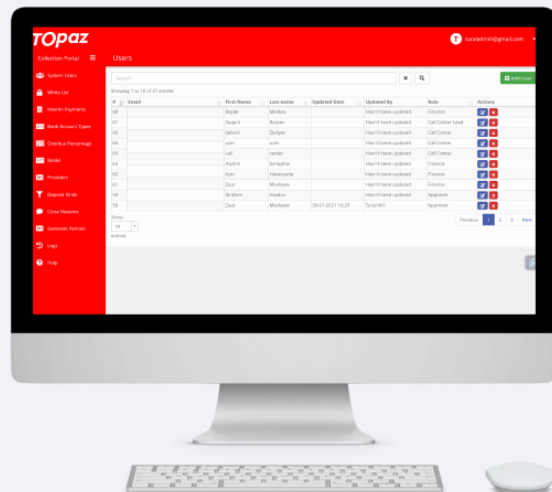

The goal of the project is to manage the entry and exit logs of Veysaloglu employees from a single center. The system is integrated with SAP and Prospect.

Collection Portal

Automatic cash collection portal difference is a unique software for companies that receive continuous payments from branches (agents). **The portal automatically performs settlements between your bank account and the agent's bank account. Using the portal:**

- You will save 50% on operating costs
- Expenses for the finance team are minimized
- The effectiveness of your team's work increases to the maximum
- You will avoid errors that may be caused by human labor

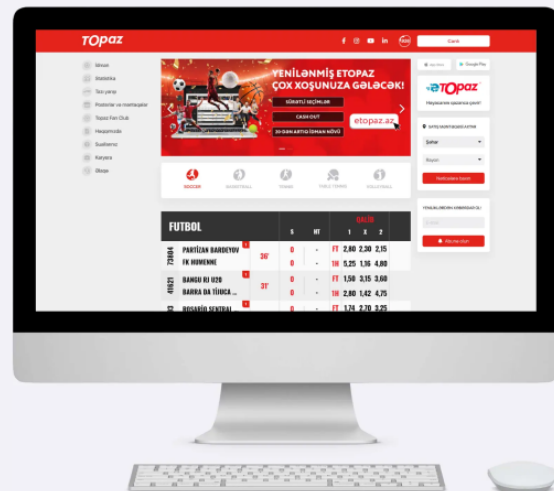

Topaz.az

Over time, people's behavior on online platforms also changes. That's why it's so important to keep your website up-to-date.

Topaz chose us for their website update!

<https://topaz.az> website is more interesting for betting fans with live statistics of various games, a more convenient interface and many additional innovations.

Topaz chose us to update their website and you can trust us to update your digital presence according to modern requirements!

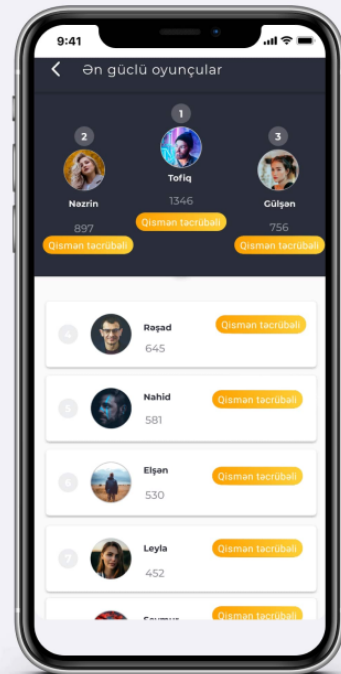

Topaz Fan Club

Cashback system? Collecting points? Ability to track all transactions?

We have created all these functions in our new mobile application for Topaz.

Through the Topaz Fan Club application, it is possible to get **cashback from betting tickets, use collected cashback funds for new tickets, earn points from winning tickets, evaluate the activity of topaz outlets and get detailed information.**

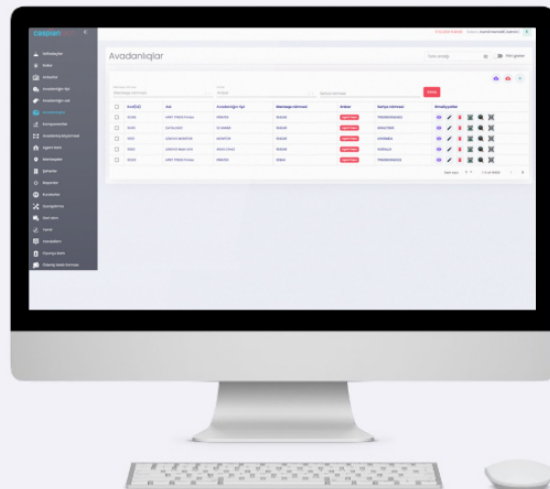

It is also easier for the company to control all loyalty transactions through an admin panel with extensive functions.

"OBA" Market

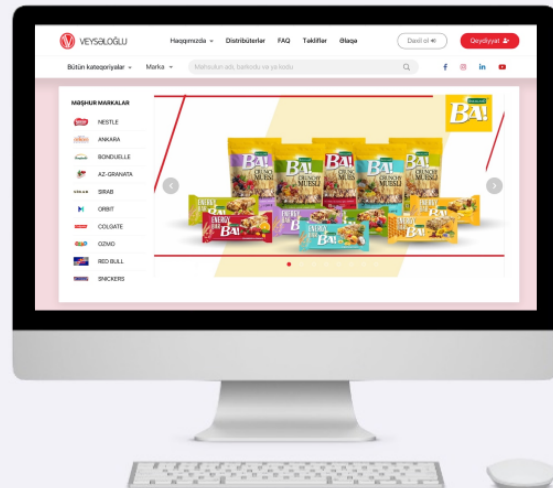

"OBA Market" LLC is a chain of neighborhood markets operating in Azerbaijan. The company currently operates more than 1050 stores. According to the number of markets, "OBA Market" LLC is the number 1 market chain in Azerbaijan. "OBA Market" LLC, a member of the Veysaloglu Group of Companies, entered the retail market in Azerbaijan in 2016 with a new discount market concept. The main goal in creating the network is to provide the customers with the products of daily demand at the lowest possible price and with the highest quality.

Vesas.az

"Veysaloglu" sales and distribution company, which started operating as a wholesale center since 1994, deals with the import of non-food and food products. The right goal, the right choice, the right decision and joint work lead this company to success.

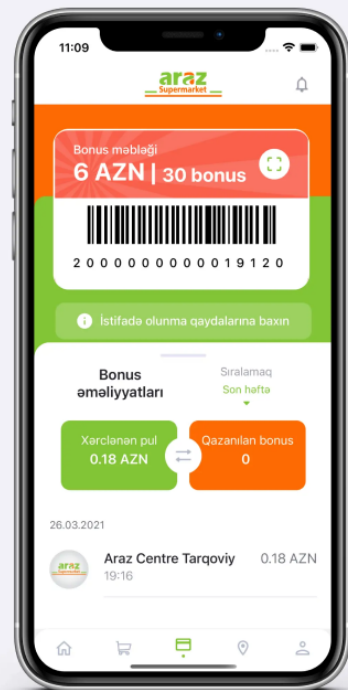

"Veysaloglu" sales and distribution company, which has developed year by year, equipped with modern technology in accordance with the requirements of the time and built a **wide trade network**, has now become a **modern trade holding distinguished by its high-level service**.

“Araz” Super market

With the help of the application we developed for Araz Supermarket, which has been with you for 10 years, it is now easier to manage loyalty cards, inform customers about payments, discounts, campaigns and products. This mobile application is an indispensable tool, especially for those who always forget their bonus card at home. Download and register the Araz Supermarket mobile application and enjoy convenient shopping!

Your business will be more profitable with a sales oriented mobile application and website!

Eganun.az

E-ganun.az is a web platform that is actively used by all government and business organizations in Azerbaijan.

Currently, the new version of the e-ganun.az platform provides a user-friendly interface to users who enter the site.

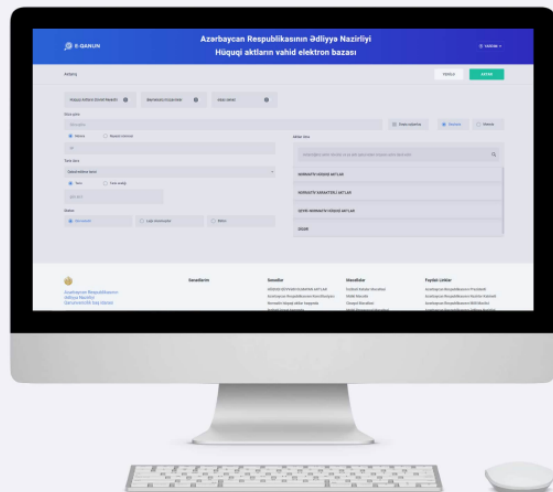

We have provided the web platform with rich functionalities for users to easily perform transactions with various types of documents:

"Rossman" handheld terminal

Rossmann terminal is built-in mobile software.

Receipt of goods, transfer, destruction, return, collection, monitoring, counting, etc. processes are designed for mobile execution.

From the backend, each user uploads their own (authorized) data (warehouses, products, customers, jobs) to the device's memory, then performs one of the above-mentioned processes. Most of these processes happen like this: the user fills in the information required by the process through the data he previously uploaded, then he can add, delete, and group products in excel table format.

Sends the last added products to the server for approval.

Ekvita

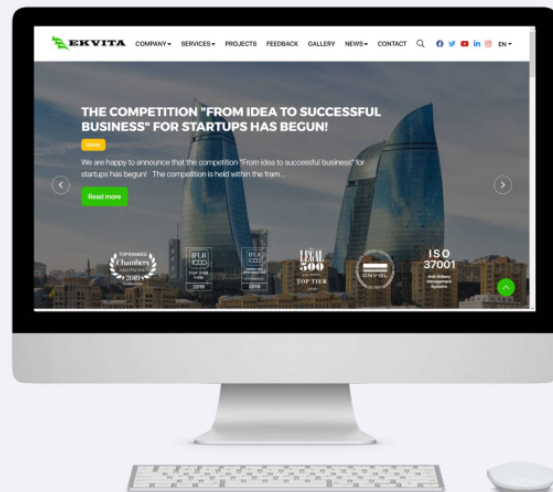

ekvita.com

In a climate where digitization is accelerating, having a website to communicate with your customers is very important.

Ekvita.com is a website we developed for Ekvita, a company that offers various business services to its local and foreign employees. **You can visit the website to get detailed information about the company, to learn about individual services or to collaborate.**

We are proud to add digital values to leading companies operating in various sectors.

Contact us to turn your ideas into successful projects.

Smart Digital Signage

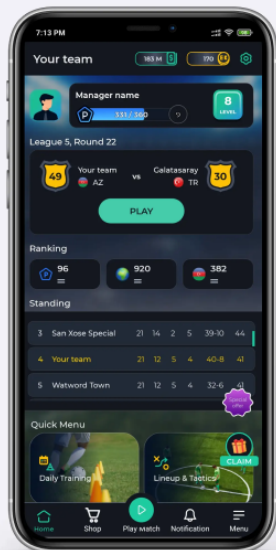

Another great product that we want to show you is also made in mind to help retailers to run their business in more productive way. Many retailers, hotels and restaurants have monitors/TVs placed in their selling environments. This software lets businesses to eliminate the following problems:

- **wrong USB card on the wrong display**
- **eradicating human related technical mistakes**
- **preventing waste of time that causes unproductivity of your merchandiser**
- **big pauses in between the videos**
- **and many other small problems**

We offer you a solution to this type of problem. This centralized software allows government agencies and enterprises to manage each monitor from a single source.
